

FurreverCoin Whitepaper

Introduction:

FurreverCoin (\$FURR) is a cryptocurrency created with a noble purpose: to support shelter animals and promote their well-being. Our vision is to develop a community-driven ecosystem where the community has the power to decide the future direction of the project. If widely adopted, we will explore the possibilities of transitioning to a Layer 2 (L2) or Layer 1 (L1) blockchain or even collaborate with other utilities that the community believes best align with our mission.

Mission and Vision:

Mission: To create a sustainable ecosystem where cryptocurrency can directly benefit animal shelters and rescues through funding, partnerships, and direct support.
